

LAYTONSVILLE.

Mr. and Mrs. Alfred Parker and children and Miss Elsie Worsham visited Miss Arvo Brown Sunday.

Mr. and Mrs. Henry Woodford and family visited Mr. and Mrs. G. L. Dulin Sunday.

Mr. Clarence Shaw happened to a painful accident Saturday when the heavy frame of a wagon fell on his head and bruised it.

Mr. Jim Marion Wilkins had a serious accident Saturday when his mule ran away, throwing him and breaking his arm. We are glad to say he is some better at this writing.

Mrs. Vannie Wade and little son, Layton, are visiting Mrs. Ida Henderson this week.

Rev. Virgil Elgin visited Mr. and Mrs. G. L. Dulin Sunday.

The protracted meeting began at Vaughn's Grove Sunday. Bro. Elgin will be assisted by Bro. H. H. Jones, of Trenton.

Mrs. Maud Shaw and little son, George, visited Mrs. Anna McCourt Saturday.

Mrs. John Cobb visited Mrs. John Jenkins Saturday.

Mrs. Ina Dulin and Miss Kathryn Henry visited Mrs. Addie Shaw Saturday.

Mr. and Mrs. Wallace Shaw visited Miss Zula Mayton Sunday.

Miss Hazel Wilkins and Mr. Beeler Henderson hid themselves to Clarksville Monday. They were accompanied by Miss Cordie Henderson and Mr. G. L. Dulin.

Mrs. Alma Sims is visiting her father, Mr. G. W. Brown, this week.

Mr. and Mrs. Wallace Cobb and children visited Mr. and Mrs. Clarence Harned Saturday night and Sunday.

Miss Effie Cato will give an entertainment at her school (Perry's) Friday afternoon. Every one is invited to come.

BLUE BIRD.

"Goodnight Corns!
We Use 'Gets-It!'"

3 Drops in 2 Seconds. That's All.
"GETS-IT" Does the Rest.
Never Fails.

"Really, I never could see how some few people use the most difficult and painful way they can find to get rid of corns. They'll wrap their toes up with bandages into a package that fills their shoes full of feet and makes corns so painful they've got to walk sideways and wrinkle up their faces. Or they use salves that eat right into the toe and make it raw and sore, or they'll use plasters that make the corns bulge, or pick and gouge at their corns and make them bleed. Funny, isn't it? 'GETS-IT' is the simple, modern wonder for corns. Just put 3 drops on. It dries instantly. No pain, fuss or trouble. The corn, callus or wart loosens and comes off. Millions use nothing else."

"GETS-IT" is sold and recommended by druggists everywhere. 25c a bottle, or sent on receipt of price, by E. Lawrence & Co., Chicago, Ill.

Sold in Hopkinsville and recommended as the world's best corn remedy by L. L. Elgin.

POULTRY
FACTS

FOR SECURING FERTILE EGGS

Strong, Vigorous Male Birds Should Be Used and Inbreeding Avoided—Cull Sickly Hens.

The first essential is to handle the breeding flock of hens in such a manner as to secure a high percentage of fertile eggs. To accomplish this all small, weak or sickly appearing hens should be removed from the flock and only eggs from strong, vigorous, healthy hens should be used for hatching. The flock should be allowed con-

Buff Orpington Male.

siderable range if this is convenient, though extensive range is not necessary to secure fertile eggs. If the hens must be confined in small quarters, green food or meat meal must be used in the ration and the hens must be compelled to scratch in clean litter for part of their feed in order to insure sufficient exercise.

Strong, vigorous cock birds must also be used, and inbreeding should be avoided. For all meat and egg breeds one cock should be allowed for ten hens and for the lighter weight egg-producing breeds one cock bird for every 15 hens.

MAKE PROFIT WITH TURKEYS

More Profitable Side Line Can Hardly Be Found for Those Who Are Favorably Situated.

For those who are favorably situated for raising turkeys, a more profitable side line can hardly be found. Given plenty of range where the turkeys can find grasshoppers and other insects, green vegetation, the seeds of weeds and grasses, waste grain,

White Holland Turkey.

acorns and nuts of various kinds, the cost of raising them is very small and the profits large.

Grain and stock farms are particularly well adapted to turkey raising, and it is on such farms that most of the turkeys are found.

Little has ever been done in the way of raising turkeys in confinement, and where it has been tried the results have been discouraging.

Plenty of range is essential to success in turkey raising.

CAPONIZE BIRDS FOR MARKET

Rhode Island Reds, Plymouth Rocks and Brahmas Make Best Capons—Dress in "Style."

(By M. E. DICKSON, Wisconsin Experiment Station.)

Don't sell late chickens cheap; caponize them.

Capons sell in winter at from 25 to 30 cents a pound.

Rhode Island Red, Plymouth Rocks and Brahmas make the best capons.

Keep fowls without food 24 hours before caponizing.

Be careful to cut away from, and not toward, the backbone when making the incisions.

Always dress capons in "style"—leave feathers around necks, hocks, on wing tips and end of the tail.

Dry-pick capons to get the best results.

Ship capons in dozen lots; they bring better prices.

ORCHARD
GLEANINGS

HOW TO CONTROL BLACK ROT

Spraying With Bordeaux Mixture Is Perhaps One of Most Reliable Means of Checking.

(By JOHN H. CARMODY, Kentucky Experiment Station.)

Black rot of grapes is by no means a new trouble, as it is very general in all of the sections where the grape is grown. Black rot first shows itself upon the berries and leaves. Usually the berries are most seriously affected and the disease manifests itself upon the latter by small, clear-cut, brown spots. These spots gradually enlarge until all of the berries on the stem are affected. It is a noticeable fact that the diseased berries do not shed but continue to cling to the vine ones after the grape season is past. It is needless to say that this serves as a means whereby the disease is carried over from one season to another.

Spraying with bordeaux mixture is perhaps one of the most reliable means of control. Where the trouble is known to exist the vines should be thoroughly sprayed in the spring, just as the buds are swelling. This application should be repeated several times during the summer. The number of applications will depend somewhat on the nature of the season. If the season happens to be dry, a few number of applications will be needed; if the season is warm and moist.

Bordeaux mixture for this purpose may be prepared as follows: Dissolve four pounds of copper sulphate (blue stone) and four pounds of stone lime separately in 25 gallons of water. Then pour the two together into a 50-gallon barrel and stir thoroughly. The best way to dissolve the copper sulphate is to suspend it in a cloth bag in water over night. Care should be taken not to let it come in contact with any metal. Pumps should be brass-lined where bordeaux is to be used.

WORST OF ORCHARD ENEMIES

Codling Moth Destroys Millions of Dollars Worth of Fruit in Every State in Union.

The codling moth is one of the worst of orchard pests, and destroys two million dollars worth or more of fruit throughout every state of the Union.

Early in the spring the moth, a brownish gray insect about three fourths inch over wings, emerges from a cocoon of yellowish silk about one half inch long which has been hidden in the crevices of the tree's bark, and lays 50 or more white eggs on leaves and apples.

In two weeks the apple worm, a flesh-colored worm about one and one half inches long, dull black, due to

Codling Moth and Worm—B. Where Worm Usually Goes In.

spots, commences work by boring into the apples, causing them to fall before maturity is reached and also a shortage in the tree's production.

The larva now makes its way out of the fallen apple beneath a piece of bark, or board, or rubbish and there spins a tight cocoon and in about four weeks the adult moth makes its debut.

The pupa stage is only reached in the first brood of the year while the second brood winter as larvae.

The pest may be held in check by spraying before the calyxes of the fruit close; by turning the hogs into the orchard to eat the fallen apples; by sawing and trimming off all harbors for it; and the July brood may be checked by wrapping gunnysacks around the bodies of trees.

WORK OF STRAWBERRY GRUB

Insect Annually Causes Much More Loss Than Is Realized—Hunt Him Out and Kill Him.

The working of the white grub in newly set strawberry fields annually causes much loss, much more, perhaps, than is commonly realized. Vacancies here and there amount to quite a little sometimes, when taken in the aggregate.

The more intensive the culture and higher the prices prevailing, the greater the loss in money.

The grub begins his work as soon as the plants are set and continues his operations throughout the life of the plantation.

As this strawberry pest works on the roots of the plants only, there is no chance to reach his case with arsenicals. The only thing to do is to hunt him out and kill him.

If a plant appears to be wilting or out of condition, not keeping up with its fellows, nine chances in ten a grub

URGED STRIKE
OF FARM HANDS

Plans For Co-operation Between I. W. W. and Agricultural Workers.

Minneapolis, Minn., Oct. 30.—Plans for bringing about closer co-operation and for strengthening the agricultural branch of the Industrial Workers of the World, were discussed at length at the annual meeting of the Agricultural Workers here.

William D. Haywood, general secretary of the Industrial Workers of the World, in an address advocated a strike of all farm hands in the midst of the harvest season as one means of obtaining adequate wages from farmers and compelling "fair treatment on the part of the authorities."

Elizabeth Gurley Flynn also urged an agricultural strike in case other measures to bring about higher wages during the harvest season fail.

Forty-Six Women.

Official lists of candidates of recognized parties for the congressional and State elections co-incident with the Presidential voting on November 5, show that there will be at least two women running for Congress and more than two-score women in the contest for State offices, ranging from Governor down. In Montana Jeannette Rankin is the regular Republican nominee for Congress and in Colorado Hattie K. Howard is running on a Progressive ticket.

The Associated Press has just compiled all the State tickets from every State in the Union and it appears from these lists that there are exactly forty-six women candidates for various State offices. This figure may be slightly reduced or increased by the fact that some names which almost certainly seem to be those of women are in rare cases also names of men, and it is possible that some women have escaped identification by the use of initials instead of their full name.

Until the Democrats came into power the farmer and the laboring man were given little consideration. Now the farmer enjoys through the Rural Credits law every privilege of the business man in readily procuring money, without paying usury, and labor, has absolutely been set free. More laws have been passed for its benefit since Wilson became president than ever before and gratitude if nothing else will impel both classes to vote to continue him in office to keep the country in peace to enjoy plenty and prosperity.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: P. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

Rules For Young Lovers.

Don't talk between your teeth.
Don't address the window pane.
Don't pull the braid off the best sofa pillow.
Don't take one of her hands in both of yours.
Don't sit for a long time without saying anything.
Don't clasp your hands together. Same with your lips.
Don't begin by saying that you have something on your mind.
Don't keep your eyes fixed persistently on the end of her nose while you are talking.

Suspicious bordering on direct evidence accumulate that the shortage of cars was made to order by the roads inimical to the president with the hope of making labor hold him responsible for the idleness that the shortage compels and the Inter-state Commission will make an investigation. For ways that are dark and tricks that are vain the Republican conspirators are peculiar.

Youth's Privilege.
Youth is the time to store up knowledge. If not gained before the day of special need, it can seldom be secured after one feels the lack of it. As a quaint old proverb puts it: "What Master Jacky does not learn, Mr. John never knows."
